ATLAS Series
Inspiring Confidence.

ATLAS Series

The Atlas series sets a new benchmark in barcode performance, pairing a high resolution megapixel camera with exceptional precision to capture even the smallest or most complex 1D and 2D codes effortlessly. Complementing this sophistication, the Atlas series delivers a robust, Android based platform engineered for flawless security barcode decoding. With ultra fast 5G connectivity, an advanced octa core processor, Android 13 GMS, and an enduring high capacity battery, the Atlas offers seamless data transfer, elevated performance, and reliable all day operation—bringing premium capability to every workflow.

Suitable for tax authorities, government documents, brand protection and more.

Features and Benefits

- ▮ 1D + 2D
- ▮ Illuminates IR, UV and visible fluorescent in a single device
- ▮ 5G dual SIM dual Standby for full Netcom to meet various applications needs
- ▮ Android 13 – powered by a 2.6GHz
- ▮ Octa-core processor
- ▮ 6.1” Screen
- ▮ Wi-Fi Dual Band
- ▮ NFC
- ▮ Bluetooth 5.2
- ▮ IP67 (Standard for protection against dust and water)
- ▮ 1.5M Drop tested to concrete

Applications

- ▮ Security Marked items
- ▮ Consumer product sub-assemblies
- ▮ Brand and integrity protection
- ▮ Protection from product diversion
- ▮ Track and trace any product

5 Illumination sources, 2 scanning engines and 2 camera systems allow to visualize images in visible light, under UV light and in the NIR and to scan barcodes and other areas of interest.
