LDR 8000 SERIES

The Luminescence Data Reader (LDR) 8000 series is a barcode-scanning powerhouse. No matter the type of barcode presented the megapixel camera allows the users to scan 1D and 2D barcodes, including small and high density ones with impressive speed and ease.

Designed to be able to read visible and UV fluorescent codes, it is a lightweight Bluetooth-enabled device that provides advanced data collection at distances of up to 50 meters away.

Suitable for Tax authorities, government documents, brand protection and more.

Features and Benefits

- ▮ Illuminates UV and visible codes
- ▮ Quick decoding of multiple code types
- ▮ UV LED 365nm Illumination
- ▮ 2400mAh battery life
- ▮ Industrial grade durability sealed to IP42 standards

Applications

- ▮ Security Marked items
- ▮ Consumer product sub-assemblies
- ▮ Brand and integrity protection
- ▮ Protection from product diversion
- ▮ Track and trace any product
